

## REPRESENTATIVE CORPORATE CLIENTS

Corporate facilities range from sprawling corporate complexes to high-rises to single-room offices. These companies vary in image, flexibility, budget, services and functions; therefore, so do their facilities. These facilities are responsible for operational performance, employee comfort, and emphasizing the corporate organization. PWI is experienced in the responsibilities and elements associated with delivering corporate projects on schedule, within budget. Our solution is to reduce or even eliminate risks, centralize control, reduce operational costs, and add return on your facility investment.
